Organist only

We are looking for an experienced organist for our church. The organist plays for two services: Sunday 10:30 AM and Wednesday 7:00 PM. There is no choir but a soloist sings one selection for the Sunday morning service. The services last one hour. Thanksgiving morning is the only extra service. Payment is per service, commensurate with experience. The organist is hired as an independent contractor, so no benefits are included except one week paid vacation after one year.

Organ

The organ is a Hutchings-Votey organ which was installed the year the church was built in 1904. It has 3 manuals and pedals, 30 stops, and 32 ranks of pipes with 2,319 playing pipes. The key action of the organ was converted from tubular pneumatic to electro-pneumatic in 1937. The current organ console, installed in 1998, was made by Copeman Hart.

Please send cover letter and resume to the above address.
